

**I-95 CORRIDOR
COALITION**

Eastern States ITS-CVO Deployment Forum & I-95 Corridor Coalition's CVO PTC Semi-Annual Meeting

On behalf of FMCSA and the I-95 Corridor Coalition, you are formally invited to attend the upcoming Eastern States ITS-CVO Deployment Forum scheduled for November 14 - 16, 2000, in Crystal City, Virginia. The Eastern States ITS-CVO Deployment Forum is the first of two national events designed to showcase deployments, developments, and technological advancements in the ITS/CVO arena. The Forum is intended for State, Federal and industry personnel from states east of the Mississippi, with a similar Forum being held in the west in 2001.

This venue offers a great opportunity to involve high-level and mid-level ITS-CVO management and personnel, as well as individuals who may not have opportunity to participate in events such as ITSA or TRB conferences. The Eastern States ITS-CVO Deployment Forum does not require a registration fee, nor does it require attendance for the full itinerary. A draft agenda and meeting logistical information has been included to assist in planning and scheduling travel.

Please note, while FMCSA and the I-95 Corridor Coalition are in shared commitment of this event, the Forum and the I-95 Corridor Coalition's CVO Program Track Committee (CVO PTC) Semi-Annual Meeting are distinctively separate agenda items. This CVO PTC meeting will be held November 13th and 14th, and the Forum will begin the afternoon of the 14th and conclude on the 16th. All sessions are open and no sessions are mandatory.

The CVO PTC meeting is 'open' to anyone interested in participating and will focus predominantly on projects within the corridor states. In background, the CVO PTC has been a working, volunteer-based organization for approximately seven years. Through the commitment and support of the I-95 Corridor Coalition, the CVO PTC has piloted a number of successful projects related to roadside safety, electronic credentialing, electronic screening, and safety management. Participants interested in the structure, support, and proceedings of such a group are welcome to participate in the semi-annual meeting activities.

Please share this information with any interested member of your organization, state, or agency. Interested parties may easily access this information on the FMCSA website @ www.fmcsa.dot.gov as well as the Coalition Connection @ www.i95coalition.org.

For meeting planning purposes, please RSVP by completing the attached form with contact information and indicating the sessions you plan to attend, and returning it via fax to Patty Reich at (703) 658-3042, by Friday, October 13, 2000.
